WHY HOME TUITION?

Every child is different and they differ in their learning and grasping ability. Some students learn and understand the concept very quickly, while some may require additional support and attention to help them study effectively and perform well in their exams. But in today's competitive world, the need to be on the top of the ladder is forever growing.

Studies have shown that home tutoring comes out to be a great option for those students who are looking to achieve more marks in exam and keep pace with the upcoming assignments and tests.

At Margdarshak career developers, we understand the delicacy of your child's education. Education is one of the few things that goes deep within people, like religion and money - another such things. Today, on an average, any family is spending more on education of their child than in the history of human race. This massive shift is born with the rapid increase in the understanding of importance of education in one's life.

Be a student, a teacher, a politician, a doctor, an engineer, an astronaut, an artist, a writer, or an entrepreneur. Work for your dream company or do your own start-up, education is one path that leads to all. The best way ensure a safe and successful is to prepare today. We have designed special programs for students of all age groups, school/college - because learning is a life long process.

All this, at the comfort of your own home. Our professionals are always ready to meet you up before you make any decision. But before going any further, let's have a look at the perks of home learning.

HOME TUITION

PERKS

Home teaching has various benefits over classes of joint studies, let's see.

PROVIDES PERSONALIZED ATTENTION

At school, there is a time limit and a teacher in a class is able to give only limited attention to each student. Due to which, your child may find it difficult to learn the subject or topic very clearly.

However, in one-to-one private home tutoring, your child will get more personalized attention from the tutor and he/she will be able to understand the concept more clearly and focus more on the specific subject areas or topics.

TUTORING AT YOUR CONVENIENCE

The primary benefit of home tutoring is the convenience for your child to learn at the comfort of your own home or any other preferable location. It also gives you the flexibility to choose your own preferred days and time of tutoring based on your availability. Learning at the own place leads to better use of study time and help in effective learning.

IMPROVED PERFORMANCE

If your child is weak in any particular subject or topic, with home tuition, he/she can give additional time and concentrate more on that subject or topic. A home tutor will help improve your child's concentration and improve the overall academic performance. One-to-one home teaching with qualified home tutor will also help analyze areas that need extra efforts and bring your child up to speed.

OPENING LEARNING DOORS MARGDARSHAK

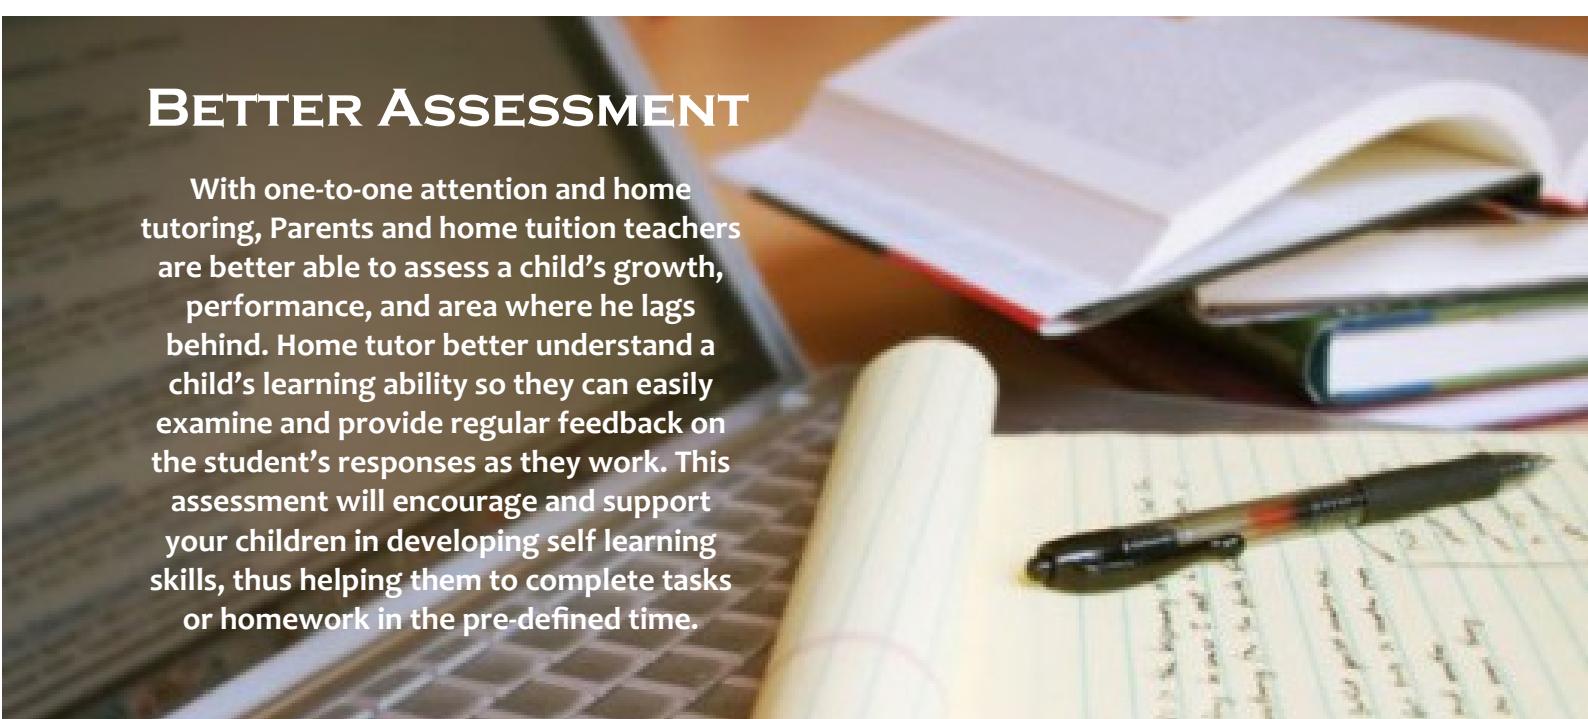

IMPROVED GRADES AND EXAM SCORES

A private home tutor can provide a student with required support and attention when preparing for tests and exams. Private tuition at home enables students to work smarter and achieve more in their exams. With a private home tutor, students are able to focus more on a specific problem areas and work hard to improve them by asking questions, either big or small without feeling embarrassed.

Private home tutor work with students through previous exam papers and provide useful tips to achieve the desired goals and objectives.

BETTER ASSESSMENT

With one-to-one attention and home tutoring, Parents and home tuition teachers are better able to assess a child's growth, performance, and area where he lags behind. Home tutor better understand a child's learning ability so they can easily examine and provide regular feedback on the student's responses as they work. This assessment will encourage and support your children in developing self learning skills, thus helping them to complete tasks or homework in the pre-defined time.

HIRING A PERFECT TUTOR FOR YOUR KID DOESN'T HAVE TO BE DIFFICULT.

**LET US HELP YOU FIND
A TUTOR WHO WILL BE THE
PERFECT FIT FOR YOUR KID!**

We provide highly qualified home tutors at your door step to work with students of all ages, from Pre-Nursery to intermediate, covering all academic subjects, music and general interest/hobby classes.

WHAT MAKES THE DIFFERENCE

We believe that the primary component of effective learning comes from self analysis.

At Margdarshak, our professionals strive to help you understand your course subjects and/or topic of interest in a way that makes your learning effective.

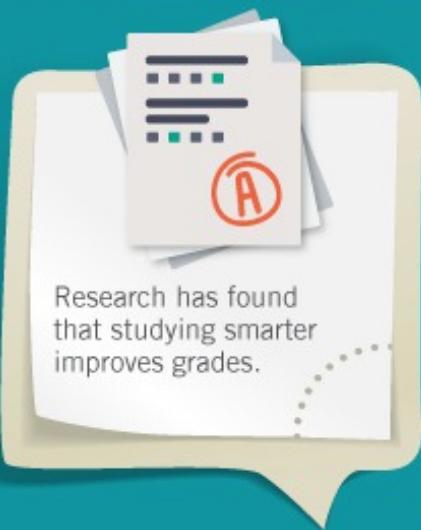

Students are rarely taught how to study successfully and effectively. Yet research shows that developing good study habits and adopting proven study techniques and methods can be the difference between doing well and badly in exams. Effective study strategies can also give students an edge that pushes them a grade higher. Achieving an A grade instead of a B grade could be as simple as changing a few study habits.

"The one who asks is a fool for five minutes, the one who doesn't remains a fool forever!"
- Chinese proverb

How to study successfully:

A study of 3000 students by Stop Procrastinating reveals the most effective study techniques:

Research has found that studying smarter improves grades.

66% of respondents said studying is not daunting if you learn how to study.

56% said a positive attitude was important.

73% said being organised and planning was essential, resulting in better grades and a more balanced and enjoyable approach to student life.

52% set aside regular time to study with deadlines and study goals, which allowed them to:

Focus better.

Concentrate more effectively.

Learn more.

Get more done in less time.

Learning techniques students found most useful:

67% Agreed that unfocused studying results in boredom and lower productivity.

43% said improving note taking improved their learning. Techniques they used included:

Reviewing notes on same day to correct errors.

Questioning and challenging what they had learned.

Organising notes into headings improves retention.

43% 57%

57% said they improved reading by:

Skimming relevant chapters first.

Re-reading as repetition improves memory formation and recall.

Question what they are reading.

67% agreed that studying for short chunks with regular breaks helps brain process information.

67% 33%

33% said they used memory techniques such as mnemonics, which improved retention and speed of learning.

What activities students found most damaging during studying:

Surfing the internet.

Listening to music.

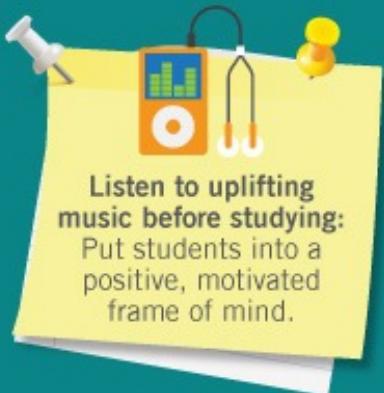

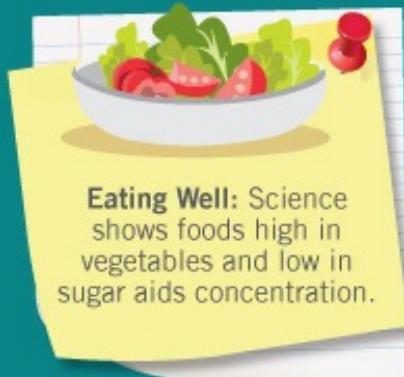

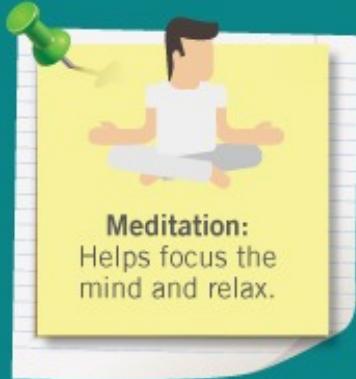

Watching television.

Messaging.

The survey also found what improved students' concentration and study:

Sources:

The Stop Procrastinating survey was undertaken with 3000 students, randomised and weighted for region, using standard national opinion polling methodologies.
